TOWN WARRANT.

THE STATE OF NEW HAMPSHIRE
To the Inhabitants of the Town of Greenland, in the County of
[L. S.] Rockingham, in said State, qualified to vote in
Town affairs.

You are hereby notified to meet at the Town Hall in said Greenland on Tuesday, the eighth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing,
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To choose by ballot one trustee for the Weeks Public Library for three years.
4. To see if the town will vote to accept State aid for permanent improvement of highways under the laws of 1905, raise and appropriate money for the same.
5. To see what sum of money the town will vote to raise for repairing highways.
6. To see if the town will vote to erect a building in the rear of the town hall, to be used for toilet purposes, and to raise and appropriate a sum of money, not to exceed one hundred and fifty dollars, for same.
7. To transact any other business that may come before the meeting,

Given under our hands and seal, this 19th day of February, in the year of our Lord nineteen hundred and ten,

JOHN H. BRACKETT
WILLIAM R. WEEKS
GEORGE A. SEWALL
Selectmen of Greenland

A true copy of Warrant—Attest:

JOHN H. BRACKETT
WILLIAM R. WEEKS
GEORGE A. SEWALL
Selectmen of Greenland

LIBRARY TRUSTEES' REPORT.

The Trustees of the Weeks Public Library respectfully submit to the town their thirteenth annual report.

At the present time there are 4,897 volumes in the library, an increase of 192 since our last report. They comprise 124 volumes of fiction, 68 volumes of biography, history, etc.; 160 were by purchase and 32 by gift.

Books have been taken out 4699 times, an average of 46 books each library day. The largest number of books taken out on any one day was 104, the smallest 11. Of the books taken out, 4340 have been fiction, and 359 travel, literature, etc.

The Trustees have received:—

Cash on hand Feb. 15, 1909	\$18 87
From town appropriation	200 00
Salter fund	20 00
State tax for support of libraries	56 40
Library fines	14 15

	\$309 42

There have been purchased 160 books at \$122.96

There has been expended for fuel and light 67 31

 Librarian 45 00

 Janitor 20 00

 Supplies 4 93

 Mrs. Hayes'

 expenses 2 40

Express, etc	\$3	88
Magazines	7	55
Cleaning, etc	15	85
Cash on hand Feb. 15, 1910	19	54

		\$309 42

The year 1909-10 has been marked by no particular features. The library has been open during the usual hours, with the exception of one day which was very stormy. The routine work has been carried on by the librarian and trustees with satisfactory results.

The books added to the library during the year cover a wide range of reading. The demand for fiction is extremely hard to supply and the ephemeral nature of this class of books makes it desirable to purchase those of greater merit, some of which are the following:

Atlas of the World; History of Exeter, N. H., Bell; Famous battles of the 19th century, Henty; Heroines every child should know, Mabie; Life of Thomas Bailey Aldrich, Greenslett; The world I live in, Keller; Wireless telegraphy and wireless telephony, Kennelly; Out of doors in the Holy Land, Van Dyke; Children's Hour, 10 vols., Tappan; Adrift on an ice pan, Grenfell; Haremlik, Vaka; Sixty years with the Bible, Clarke; Alaska and the Klondike, McLain,

The trustees accepted with regret the resignation of Miss Carrie F. Weeks as librarian. They desire to express their appreciation of the fidelity and loyalty

she has shown in promoting the interests of the library.
Miss Lillian A. Odell was elected in her place.

JOHN P. WEEKS
WILLIAM P. FRINK
RHODA S. HAYES

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board of Greenland,—

I herewith submit my second annual report. The year has been of few changes but one of substantial progress. The year 1908-1909 saw but one change of teachers in the grammar school following years of two and three changes in a single school year so progress was made in the right direction. The last teacher of the year, Miss Lucey, resigned to be married in the summer and Miss Bartlett, a teacher of some experience and a graduate of Bridgewater normal school was selected for the position. It is hoped that the present efficient service may be retained at least through the present school year. In June several pupils were recommended for admission to the Portsmouth high school and were received on the certificate of the superintendent. Greenland now has thirteen pupils in this high school and fourteen in outside secondary schools. The preparation of the last class was not ideal owing to the many changes of teachers. Results will be more satisfactory when a good teacher is kept in the grammar school long enough for her work to give results. The primary school is doing the same careful work as in the immediate past using the new material that is being furnished and gradually adopting newer and more pedagogical methods in the work, particularly the reading and the music.

The eye test, required by law, has been given by the superintendent and several cases of serious trouble found. In all such cases parents have been notified and advised to consult an oculist. Investigation has shown, in every case, need of treatment and the care of the specialist. The authority of the school department ends with giving the test and advising the parents but interest by no means stops there. Attention is often directed to some child who is not doing normal work. Examination shows defective vision to be the cause and when this is corrected a noticeable improvement in all school work is immediately seen.

The work in primary reading by the use of the word and sentence and phonetic method is progressing favorably. With a continuation of the same good work as at present classes of good readers should soon be sent out from the schools.

The need of additional school room will be greater after September than for the last two years. The grammar school is full now. The incoming class numbers sixteen and the outgoing class numbers but three. Unless there is a large falling off in the upper room from some outside cause, it will be practically impossible to accommodate this large number in the grammar school. The primary room cannot keep back any of these pupils for it now has more pupils than it has seats and will be filled up with those left from the two lower classes and the incoming first grade. There are several ways of meeting the demand for more room but it would be a penny wise, pound foolish policy to attempt to increase present accommodations when the expenditure of a moderate sum would give the town ample school room for the next ten to twenty years.

There are not enough pupils in any single part of the town to warrant the opening of an outside, ungraded school. To consider such a plan would be folly if the interests of the children are considered. A modern building with modern conveniences at the center is needed and could be built at a moderate sum. The opening of a third room with the services of a third teacher and the possible better grading of the children in the schools would result in immediate better results in all the grades.

A few changes have been made in books, additions made, but these needs are annual. A case of eight maps has been added to the grammar school and will be of much value.

The report of the music supervisor is given herewith. I invite your careful attention to the work in music for it is one of the very valuable parts of the training every child should receive in his school life. I endorse the work of the year as having been progressive, enthusiastic and well adapted to the needs of the schools. Our ambition is to have every child at least able to interpret the simplest mechanical parts of music, able to recognize and sing to some extent simple music. Most children should be able to read ordinary music and to sing it when they leave the grammar school, if they have been properly taught. Children are taught not to fear the sound of their own voices and nearly every child has already done this. Monotones are not neglected as heretofore and every child is taught he can learn to sing. All work in music has improved during the year.

The walls of our school rooms have few suitable pictures. Cheap colored pictures in fancy gilt frames

and entirely out of place in a school room. Copies of the best masterpieces are easily found and are cheap. \$3.00 will place on the wall of either schoolroom a suitable picture, well framed. If any liberal minded friend of the schools wishes to add to the efficiency of the schools and the pleasure of the children as well as to help us to teach love for the best in art I shall be glad to confer with him. One good picture will help and \$50.00 to \$100.00 can well be spent for this purpose. Well selected and properly framed pictures are very valuable in any school room.

Attention is called to the tables of statistics that accompany this report, also to the financial report of the year. As the school year and the fiscal year are not identical it will be seen that the present fiscal year calls for thirty nine weeks of school while the school year, ending in July, had but the usual thirty eight weeks.

My hearty thanks are due the school board, teachers, pupils and citizens for constant and cordial support during the entire year. The work could not have been so happy and progressive but for this unfailing assistance and cordial good will.

Respectfully submitted,
O. H. ADAMS,
Superintendent of Schools.

February 11, 1910.

The school board estimates that six hundred and seventy-five dollars will be needed for High School tuition and one hundred and twenty-five dollars for books and supplies for the next school year.

To the Superintendent of Schools of Greenland.

I take pleasure in submitting to you my second report as supervisor of music.

We have nearly completed a second year of work under the Weaver system of teaching music. The success thus far attained has been by far greater than that of last year. The children are much more advanced in their work and very readily sing and appreciate the written exercises illustrating the seven time motions taught. I feel they are getting a splendid understanding of the principles of the method.

We are doing considerable work in three part music in the upper grades and much interest is being taken in their lessons.

Every two weeks a record is made of the lesson in "slip" singing. I find a good percentage of both schools are singing their exercises nearly perfect in time, tone and syllable names and a good number are quite perfect. These exercises are done by the child entirely without help.

Too much praise cannot be said of the two grade teachers who work so faithfully from lesson to lesson to carry out my instructions.

In all, this has been a most successful year in the way of music. I extend to all a most cordial invitation to visit my classes at any time.

Thanking you and the School Board for your kindness to me at all times which helps make my work so pleasant, I am

Very respectfully,

LUCY M. HOYT.
